2010 Average Score = 30

Adjustment Criteria: Handicaps of 0 - 16 will be adjusted by 0.1 against the difference between actual score and average score. Above average score then adjustment is negative, below average score then adjustment is positive.

Handicaps of > 17 will be adjusted by 0.2 against the difference between actual score and average score. Above average score then adjustment is negative, below average score then adjustment is positive.

Further adjustments will be carried out at the curry night following a review of the Nigg Bay Rules formula
